Index to Volume XXV

Abbreviations:—'(P)' refers to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists or at other meetings or symposia. '(L)' refers to letters to the Editor.

ABBOTT, J. D.: Meningococcal infection: serotypes and sulphonamide sensitivity (P), 1009
——, and GRAVES, J. F. R.: Serotype and sulphonamide sensitivity of meningococci isolated from 1966 to 1971, 528
——. *See also* SUTCLIFFE, E. M., and ABBOTT, J. D.
Abbreviations for names of diagnostic importance (L), 369
ABE, H. *See* AKEYAMA, T., KAMADA, T., *et al.*
Abortion after *Brucella abortus* biotype 2 infection, case of, 882
Acrylamide gel electrophoresis, improved, in studies on sera of different species, 508
Acrylic sponge biopsy in peripheral lesions of lung (P)
Activator(s). *See* Plasminogen activator(s)
ADAMS, P. W. *See* ROSE, D. P., and ADAMS, P. W.
ADDISON, G. M., BEAMISH, M. R., HALES, C. N., HODGKINS, M., JACOBS, A., and LLEWELLIN, P.: An immunoradiometric assay for ferritin in the serum of normal subjects and patients with iron deficiency and iron overload, 326
Adenitis, cervical, due to *Mycobacterium chelonei* (*M. abscessus*) (P), 1006
Adenoid basal carcinoma of cervix uteri, 301
Adenovirus, virucidal effect of chlorhexidine, 76
Aeromonas species, isolation from clinical sources in general hospital, 970
Africans, elderly, fibrinolysis, stypven time and platelet aggregation in, effect of fat diet, 574
AGASHE, V. S. *See* SUR, B. K. SHUKLA, R. K., *et al.*
Age, relation to total body potassium in normal adults, 512
AHUJA, S., LEWIS, S. M., and SZUR, L.: Value of surface counting in predicting response to splenectomy in haemolytic anaemia, 467
Air discharged from centrifuges, safe disposal of (L), 742
AKEYAMA, T., KAMADA, T., KOIZUMI, T., and ABE, H.: The localization of the Australia antigen in the liver by immunofluorescence, 1071
Alanine and aspartate transaminase assays, standardization of, 940
Albumin variant, slow-moving, in family with bisalbuminaemia, 856
Albumin-coated charcoal, differentiation between free and bound vitamin B_{12} by, effect of *p*H on (L), 834
ALEXANDER, F. *See* NAGI, A. H., ALEXANDER, F., *et al.*
ALEXANDER, F. W., and DELVES, H. T.: The preparation of a 'metal-free, nappy and its application to metabolic balances in children, 927
ALEXANDER, K. *See* SCHMIDT, E., POLIWODA, H., *et al.*
Alimentary tract. *See* Gastrointestinal tract
Alkali denaturation, estimation of small amounts of fetal haemoglobin by, 738
Alkaline phosphatase, estimation of, King-Armstrong method for (L), 368
—— ——, placental and placental-like, in maliganant disease, detection of, automated screening technique for, 349
—— phosphatases of bile, nature of, 149
ALKJAERSIG, N.: Methodology for the control of thrombolytic therapy (P), 625
ALLAN, W. *See* ROWAN, R. M., ALLAN, W., *et al.*
ALLINGTON, M. J. *See* SHARP, A. A., ALLINGTON, M. J., *et al.*
ALLISON, M. *See* JACOBS, A., BEAMISH, M. R., *et al.*
ALMOND, E. J. P. *See* MARSTON, S. D., ALMOND, E. J. P., *et al.*
Alveolitis, fibrosing, right lung transplantation for, pathological findings after, 674
Amino acids, serum, microbiological assay of, 171
Amniocentesis, detection of chromosome and other fetal abnormalities by (P), 1008
Amoebae, soil, free-living, nuclear division in, method for study of, 271
Amylase isoenzymes, separation and detection by technique using chromogenic substrate, 266
Amyloid goitre, 683
——, spicular arrangement in renal biopsy, 1056
Amyloidosis and diabetic fibrinous vasculosis in kidney, study with new staining methods, 373
Anaemia, dyserythropoietic, congenital, with erythroblastic multinuclearity, 561
——, haemolytic, splenectomy in, response to, value of surface counting with ^{51}Cr-labelled red cells in predicting, 467
——, pernicious, immunoglobulin and intrinsic factor antibody in serum in, 606
ANAGNOSTOU, D., and HARRISON, C. V.: Angiofollicular lymph node hyperplasia (Castleman), 306
ANDERSON, J. M.: Increased brain weight/liver weight ratio as a necropsy sign of intrauterine undernutrition, 867
ANDERSON, K. *See* JAMIESON, A., and ANDERSON, K.
ANDERSON, M. C.: Hilar cell tumour of the ovary, 106
ANDERSON, S. G., *et al.*: Measurements of concentrations of human serum immunoglobulins, 133
Angiofollicular lymph node hyperplasia (Castleman), 306
ANSELL, I. D., and JOEKES, A. M.: Spicular arrangement of amyloid in renal biopsy, 1056
ANTHONY, P. P.: Helminthic pseudotumours of the bowel (P), 1002
Antibacterial activity of nifuratel in urine and serum, 447
Antibiotics, commensals producing, in surgical wounds and dermatological lesions (P), 550
——, eight, sensitivity of diphtheria bacilli to, 716
——, resistance to, effect on survival of *Staph. aureus*, 713
——, sensitivity of Gram-negative bacilli to, changes in burns, 176
Antibodies, haemagglutinating, to meningococci, incidence in North-West England, 955
——, rubella haemagglutination inhibition, screen test for, 267
—— to *Candida albicans*, fluorescent, agglutinating, and precipitating, relationship between, and immunoglobulin classes, 344
——, toxoplasma, detection of, stable haemagglutinating antigen for, 762
Antibody, anti-s, causing mild haemolytic disease of newborn, 772
——, Australia, in British patients with leprosy, 401
——, ——, total screening of blood donations for (P), 553
——, human, response to lipopolysaccharides from *Neisseria gonorrhoeae*, 56
——, intrinsic factor, and immunoglobulin in serum in pernicious anaemia, 606
——, —— ——, binding, in assay of intrinsic factor-vitamin B_{12} complex, 320
——, lymphocytotoxic, cold and IgM cold autoantibody of anti-I specificity in chronic glomerular nephritis, 247
——, toxoplasma, latex agglutination slide test for, assessment of, 359
Antibody-coated latex particle test for detection of fibrinogen/fibrin degradation products, 680
Anticoagulant response to heparin, heterogeneity of, 45
Anticonvulsants, folate metabolism in epileptics treated with, comparative and serial assays of, 721
Anti-D immunoglobulin, quantitation with AutoAnalyzer, adverse effect of bromelin, 206
—— ——, —— ——, manipulative and inherent errors in, 198; (L) 916
Antigen, Australia, detection by counter-immunoelectrophoresis with tannic acid, 832
——, ——, in British patients with leprosy, 401
——, ——, localization in liver by immunofluorescence, 1071
——, ——, total screening of blood donations for (P), 553
——, fibrinogen-fibrin-related, in serum, fibrin lysis by thrombin elevating levels of, as shown by AutoAnalyzer assay (P), 623
——, ——. *See also* Fibrinogen-fibrin degradation products
——, haemagglutinating, stable, for detection of toxoplasma antibodies, 762
Antihaemophilic globulin, bovine and porcine, aggregation of human platelets by commercial preparations of, 210
Antiheparin activity of serum, and platelet factor 4 (P), 1007
Antimycotic drugs. *See* Clotrimazole
Anti-s antibody causing mild haemolytic disease of newborn, 772
Antisera, commercial, for capsular typing of klebsiella species, 734
Anti-streptolysin O, modified rapid slide test for, 543
Aortic disease in idiopathic retroperitoneal and mediastinal fibrosis, 287
—— prosthesis, recent, streptokinase in, experiments in dogs and cats (P), 652
Apnoea induced by scoline, diagnosis of, 422
Appendix, mucosal metaplasia in, 809
ARAPAKIS, G. *See* STATHAKIS, N., ARAPAKIS, G., *et al.*
AROCHA-PIÑANGO, C. L.: A comparison of the TRCII and latex-particle tests for the titration of FR-antigen, 757
——, MARSH, N. A., ROBINSON, D., and CARACAS, I. V. I. C.: Fibrinolysis following contact with a Saturnid caterpillar (P), 637
——. *See also* MARSH, N. A., and AROCHA-PIÑANGO, C. L.
Arterial occlusions, chronic, streptokinase treatment of, 642; (P), 644
—— ——, recent, streptokinase treatment of (P), 641
Arthritis in wrist due to *Brucella abortus*, case of (P), 1002
——, rheumatoid, haem biosynthesis in, 159
Asbestos in lung tissue, significance of (P), 557
Ascorbic acid levels in platelets in normal subjects and in disease, 478
Aspartate and alanine transaminase assays, standardization of, 940
Association of Clinical Biochemists: Reports and Bulletins, 72, 158, 258, 334, 436, 533, 589, 700, 798, 866, 975
Association of Clinical Pathologists: 88th General Meeting, 550

—— —— —— ——: 89th General Meeting, **1002**
—— —— —— ——, history and functions, **461**
Australia antigen and antibody in British patients with leprosy, **401**
—— —— —— ——, total screening of blood donations for (P), **553**
—— ——, detection by counter-immunoelectroosmophoresis with tannic acid, **832**
—— ——, localization in liver by immunofluorescence, **1071**
—— ——. *See also* Hepatitis B antigen
—— antigen-positive liver disease, cytoplasmic particles in hepatocytes in, electron microscope study of, **403**
AutoAnalyzer assay, fibrin lysis by thrombin elevating levels of fibrinogen-fibrin-related antigen in serum as shown by (P), **623**
—— method for determination of serum iron, erroneously high results with, **545**
——, quantitation of anti-D with, adverse effect of bromelin, **206**
——, —— —— —— ——, manipulative and inherent errors in, **198**; (L), **916**
——, SMA 6/60, creatinine determination on, improved procedure for, **603**
——, Technicon SMA 4A, computer linkage for (P), **1012**
—— technique in serological assessment of monozygotic origin of fetus in fetu, **793**
Autoantibody, IgM, cold, of anti-I specificity in chronic glomerular nephritis, **247**
Autoclaving characteristics, effect on recovery of serum vitamin B_{12} determined by radioisotope dilution method, **181**
Automation, continuous flow, conversion to semidiscrete system for serological tests, **548**
AYLIFFE, G. A. J. *See* PRINCE, J., and AYLIFFE, G. A. J.
AZADEH, B. *See* KOHOUT, E., POST, C., *et al.*
AZAR, H. A. *See* LABAZE, J. J., MOSCOVIC, E. A., *et al.*

Bacilli, Gram-negative, antibiotic sensitivity of, changes in burns, **176**
BACKHOUSE, J. L. *See* GARNER, M. F., and BACKHOUSE, J. L.
Bacteria, contamination with, in-use testing of disinfectants in hospitals for, **586**
——, cutaneous, demonstration of fibrinolysis by, technique for, **740**
——, viable, localization in tissue, **1000**
Bacteriocins from *Neisseria gonorrhoeae*, possible role in epidemiological studies, **60**
Bacteriology, hospital, data processing in, 18 months' trial of, **338**
BAGSHAWE, K. D. *See* ELSTON, C. W., and BAGSHAWE, K. D.
BAILEY, A., and LONGSON, M.: Virucidal activity of chlorhexidine on strains of *Herpesvirus hominis*, poliovirus, and adenovirus, **76**
BAILEY, R. R., EL-MAGHRABY, M., BALFOUR, I. C., and MITCHELL, T. R.: Chronic glomerular nephritis in a man with an IgM cold autoantibody of anti-I specificity and a cold lymphocytotoxic antibody, **247**
BAIN, A. D. *See* GRACE, E., and BAIN, A. D.
BALFOUR, I. C. *See* BAILEY, R. R., EL-MAGHRABY, M., *et al.*
BALLARD, B. C. D.: Lysing agent for the Coulter S (L), **460**
BANDARIZADEH, B. *See* KOHOUT, E., POST, C., *et al.*
Barbiturates and related compounds, screening and measurement in plasma by gas-liquid chromatography, rapid micro-method for, **899**
BARKER, J., HEALING, D., and HUTCHISON, J. G. P.: Characteristics of some co-trimoxazole-resistant Enterobacteriaceae from infected patients, **1086**
BARKHAN, P. *See* RAVEN, J. L., and BARKHAN, P.
BARKLEY, R. *See* MCCRACKEN, A. W., and BARKLEY, R.
BARON, D. N., and BUTTERY, J. E.: Electrophoretic separation and differentiation of enzymes from human and from porcine liver, **415**
——, and FAIRNEY, A.: The teaching of chemical pathology to medical students in the United Kingdom, **827**
——. *See also* MOSS, D. W., BARON, D. N., *et al.*
——. *See also* WILKINSON, J. H., BARON, D. N., *et al.*
BARR, R. D. *See* FORBES, C. D., BARR, R. D., *et al.*
BAYSTON, R.: Coagulase-negative strains of *Staphylococcus pyogenes*, **62**
——: Serological investigations in children with colonized Spitz-Holter valves, **718**
BEAMISH, M. R. *See* ADDISON, G. M., BEAMISH, M. R., *et al.*
——. *See* JACOBS, A., BEAMISH, M. R., *et al.*
BECKER, W. B. *See* ROSE, A. G., and BECKER, W. B.
BELL, T. M., CASPARY, E. A., and FIELD, E. J.: Storage of lymphocytes for immunological study, **364**
Bence-Jones proteinuria, clinical significance of (P), **555**
—— —— in myelomatosis, demonstration of (L), **183**; *Erratum*, **369**
Benedict's qualitative test for sugar in urine, action of creatinine on colour of cuprous oxide precipitate in, **896**
—— —— —— —— —— ——, role of creatinine and histidine in, **892**
BENNETT, A. E. *See* INGRAM, G. I. C., INGLISH, P. J., *et al.*
BENNETT, M. H. *See* FARRER-BROWN, G., BENNETT, M. H., *et al.*
BENTON, J. M. *See* JORDAN, A., BENTON, J. M., *et al.*
BERRY, C. L. *See* TURNER, D. R., and BERRY, C. L.
BEVERLEY, J. K. A. *See* HENRY, L., and BEVERLEY, J. K. A.
BHAGWANDEEN, S. B., and MOTTIAR, Y. A.: Granuloma venereum, **812**
BHOGAL, B. *See* MARKS, R., RAMNARAIN, N. D., *et al.*
BIDWELL, E. *See* MEYER, D., BIDWELL, E., *et al.*
Bile, alkaline phosphatases of, nature of, **149**
—— ducts, intrahepatic, congenital dilatation of, with cholangiocarcinoma, **804**
Biliary cirrhosis, primary, serum protein levels in, **789**
BILLS, T. *See* LILLEYMAN, J. S., BILLS, T., *et al.*
Biopsy, acrylic sponge, in peripheral lesions of lung (P), **557**
——, rectal, in carcinoma of rectum and lower sigmoid, study of mucosubstances in, value in diagnosis of premalignant mucosa, **123**
——, renal, amyloid in, spicular arrangement of, **1056**
——, skin surface, study of erythrasma microorganism *in situ* with, **799**
——, small intestinal, quantitation of specimens, method for, **243**
—— specimens from fibreoptic gastroscope, histological diagnosis of chronic gastritis in, **1**
Bisalbuminaemia, family with slow-moving albumin variant in, **856**
BISHUN, N. P. *See* MARSTON, S. D., ALMOND, E. J. P., *et al.*
BITENSKY, L. *See* JOHNSTONE, J., BITENSKY, L., *et al.*
BLACK, A. J., CONDON, P. I., GOMPELS, B. M., GREEN, R. L., HUNTSMAN, R. G., and JENKINS, G. C.: Sickle-cell haemoglobin C disease in London, **49**
BLACK, D. *See* MCGEACHIE, J., ROBINSON, G., *et al.*
BLACK, J. M. *See* GARVEY, M. B., and BLACK, J. M.
BLACKBURN, E. K. *See* HUDSON, G., BLACKBURN, E. K., *et al.*
——. *See* PRESTON, F. E., MALIA, R. G., *et al.*
BLACKMORE, J. A., and PARRY, T. E.: Microbiological assay of amino acids in serum: valine, leucine, and methionine, **171**
BLAIR, J. A. *See* LEEMING, R. J., PORTMAN-GRAHAM, H., *et al.*
BLAIR, J. N. *See* WHITBY, J. L., and BLAIR, J. N.
Bleeding. *See* Haemorrhage
BLENDIS, L. M. *See* STEWART, D., BLENDIS, L. M., *et al.*
Blood cell counter, electronic, Celloscope **401**, evaluation of, **539**
—— —— counting machines. *See* Coulter counter
—— circulation, appearance of fibrin breakdown products in, interpretation of, **185**
—— coagulation, disordered, in burned children receiving high molecular weight dextran, **473**
—— ——, effect of combined phenformin and ethyloestrenol, **638**
—— ——, effect of progestogens (P), **1007**
—— ——, intravascular, in *E. coli* septicaemia (P), **1006**
—— ——, 'intrinsic', partial thromboplastin (cephalin) time test for, standardization of, **1038**
—— ——, platelet adhesiveness, and fibrinolytic activity in obesity, **484**
——, contact activation in haemodialysis, **1045**
—— donations, total screening for Australia antigen and antibody (P), **553**
——, fibrinolytic activity of, measurement by timed fibrin digestion, **191**
—— parasites, extracellular, concentration and processing for electron microscopy, rapid method for, **997**
—— platelets, adhesiveness, blood coagulation, and fibrinolytic activity in obesity, **484**
—— ——, aggregation, effect of fat diet in elderly Africans, **574**
—— ——, ascorbic acid levels, in normal subjects and in disease, **478**
—— ——, counting, automatic system (Technicon) using whole blood, evaluation of, **218**
—— ——, function, effect *in vitro* of two compounds developed from pyrimido-pyrimidines, **427**
—— ——, ——, —— of progestogens (P), **1007**
—— ——, ——, —— in chronic renal failure, clinical and experimental study of, **745**
—— ——, human, aggregation by commercial preparations of bovine and porcine antihaemophilic globulin, **210**
—— ——. *See also* Platelet
—— transfusion, intrauterine, acute villous inflammation in placenta after, **872**
BLOOM, A. L. *See* EVANS, E. P., BRANCH R. A., *et al.*
BODDY, K., KING, P. C., HUME, R., and WEYERS, E.: The relation of total body potassium to height, weight, and age in normal adults, **512**
Bone, caisson disease of. *See* Osteonecrosis, dysbaric
—— marrow, DNA synthesis in, folate-dependent, effect of trimethoprim, **194**
—— —— lipofuscin, **947**
——, mineralized and non-mineralized, in iliac crest, quantitative observations on, **277**
—— sections, unfixed undemineralized, preparation with bone cryostat, **26**; (L) **742**
